

# POSITIVE PEBBLES

with Imagine If...

## 1. Find Your Pebble

If you have a garden you might find one there. Or you could go on an adventure with a responsible adult to a park, loch or riverside!

(Tip: Smooth, big pebbles are easier to paint)

## 2. Wash Your Pebble

Take your pebble home and wash it with soap and water.

Leave it in a safe place to dry, before you start painting!

02

## 3. Start Painting!

Apply the first layer of paint to your pebble. It could be one colour or multi-coloured.

Leave it somewhere safe to dry before you start adding the detail.

(Tip: You might want to add another layer of paint)

03

Continued...

#### 4. Add Some Detail

Create a fun design or add a positive note. You can do whatever you want but try to design something that would make someone smile! Put your finished pebble in a safe place to dry.

04

#### 5. Put Your Pebble on Show

Once your creation is dry, place it somewhere others will be able to enjoy it. Maybe in your front garden, on a bench or next to your front door

05

#### 6. Spread the word!

Tell your friends about the positive pebbles and get them to create one too. The more we create the more positivity we can spread!

You could also paint more than one and have a go at creating different designs.
